CAREER OBJECTIVE

B.Tech Information Technology student with strong programming foundations in Java, Python, and C++, along with Object-Oriented Programming, Data Structures and Algorithms, DBMS, SQL, and software development. Hands-on experience developing backend applications, REST APIs, database-driven systems, and end-to-end software projects using Java Spring Boot, Python FastAPI, PostgreSQL, MySQL, and React. Experienced in software validation, debugging, model evaluation, data validation, and semantic verification. Seeking an entry-level Software Development Engineer in Testing (SDET) opportunity to apply programming and problem-solving skills to software quality and testing.

EDUCATION

JSS Academy of Technical Education, Noida 2023 – 2027
Bachelor of Technology in Information Technology | CGPA: 7.27 / 10
S.S.S.V Inter College, Ayodhya 2021
Higher Secondary Education | 70.8%

TECHNICAL SKILLS

Programming Languages: Java, Python, C++, JavaScript

Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, SQL

Software Testing & Quality: Software Validation, Data Validation, Semantic Verification, Debugging, Model Evaluation, Problem Solving

Software Development: Spring Boot, FastAPI, Node.js, Express.js, React.js, REST APIs

Databases: MySQL, PostgreSQL, MongoDB, SQLAlchemy

AI/ML & APIs: LLM APIs, RAG, LangChain, LangGraph, NLI/Semantic Verification

Tools: Git, GitHub, VS Code, Antigravity

PROJECTS

CampusConnect — AI-Powered Placement & Resume Matching Portal

Java, Spring Boot, MySQL, React, Python, AI/NLP, DSA

- Developed a Java Spring Boot and MySQL backend for managing student profiles, company job postings, and applications.
- Built an end-to-end software workflow connecting student/company profiles, job postings, an AI microservice, ranking engine, and recruiter dashboard.
- Designed a priority-based ranking algorithm using DSA and an NLP microservice to calculate resume-to-job-description similarity and rank candidates.
- Worked across Java backend, Python services, database operations, and frontend components while validating end-to-end application workflows.

ClarifyAI — Confidence-Scored, Source-Verified Answer Engine

Python, FastAPI, PostgreSQL, SQLAlchemy, LLM APIs, NLI

- Developed an end-to-end verification pipeline covering evidence retrieval, answer generation, claim extraction, evidence-claim matching, confidence scoring, and verified output.
- Built a modular FastAPI backend with PostgreSQL and SQLAlchemy and implemented validation logic to classify claims as Supported, Contradicted, or Insufficient.
- Engineered confidence-scoring mechanisms using evidence relevance, semantic support, contradiction signals, and source quality.
- Debugged and validated software components across the verification pipeline.

AgentIQ — Autonomous Multi-Agent Research & Task Assistant [🔗 Live](#) — [🐙 GitHub](#)

Python, LangChain/LangGraph, LLM APIs, RAG, FastAPI, React

- Developed a multi-agent software pipeline consisting of planning, research, writing, and critique stages.
- Implemented RAG and web-search retrieval to validate and ground generated outputs.
- Developed a self-critique workflow in which generated drafts are reviewed and revised before producing the final report.
- Exposed the application through FastAPI and developed a React dashboard for monitoring agent workflows and tool calls.

INTERNSHIP EXPERIENCE

Artificial Intelligence Intern — Codec Technologies Pvt. Ltd. Jun 2026 – Jul 2026

- Applied Python and core AI/ML concepts across practical modules and real-world tasks.
- Worked on projects involving data preprocessing and model evaluation, strengthening validation, debugging, and analytical problem-solving skills.
- Developed and evaluated software-based solutions using Python.

GenAI & Cloud Computing Intern — IBM SkillsBuild AICTE–BharatCares Program

- Gained industry-aligned exposure to Generative AI, AI tools, and cloud computing fundamentals.
- Completed structured modules involving cloud fundamentals and practical GenAI use cases.
- Applied technical concepts to real-world software problems.

CERTIFICATIONS

- Communication Skills — TCS iON, Tata Consultancy Services | Jul 2026
- GenAI & Cloud Computing Internship — IBM SkillsBuild, AICTE–BharatCares Internship Program
- Artificial Intelligence Internship Certificate — Codec Technologies Pvt. Ltd.

SOFT SKILLS

Problem Solving | Logical Thinking | Communication | Teamwork | Adaptability | Ownership
